

SANYOGITA SINGH

AI & Backend Software Developer | Full-Stack Development | Machine Learning | Civic Tech Solutions

📞 +91 7003054039 ✉ sanyogitasinghbgm@gmail.com 🌐 GitHub 🐦 X (Twitter) 🔗 LinkedIn 📍 Kolkata, India

PROFESSIONAL SUMMARY

Enthusiastic Machine Learning Engineer pursuing a **B.Tech in Computer Science & Engineering**, with hands-on experience in **Machine Learning and Python**. Developed innovative solutions, including an AI-powered civic complaint resolution system that reduced registration time by **60%**. Committed to enhancing user experiences through full-stack development and collaboration in impactful projects.

EDUCATIONS

VIT Bhopal University | Ashta, Madhya Pradesh

Sep 2024 - Sep 2028

B.Tech Computer Science & Engineering

CGPA : 8.97

1. **SolVIT Hackathon . Mar 2025**

- Participated in **SolVIT'25**, a hackathon hosted by **VIT Bhopal University**.
- Enhanced **problem-solving skills** under time constraints by brainstorming ideas and collaborating with team members to design practical solutions.
- This experience improved **logical thinking**, teamwork abilities, and provided exposure to real-world problem statements.

2. **Member of Android Club - VIT Bhopal . Jan 2025 - Feb 2025**

- Engaged in **AcWoc'25**, organized by the Android Club at VIT Bhopal.
- Acquired knowledge of **Android development fundamentals** and participated in peer learning.
- Collaborated with students in community-driven tech sessions.

PROJECTS

VaaniAI — AI-Powered Civic Complaint Resolution System | 🌐 Github △ Vercel

Mar 2026

Backend Developer and ML Engineer

- Finalist at India Innovates Hackathon (500+ teams); built a 24/7 AI voice agent for civic complaint reporting in Hindi & English, cutting registration time by 60%.
- Engineered a citizen portal + admin dashboard with 10+ complaint categories, live tracking, statistical analytics, and a geospatial Delhi Complaint Map across 30+ city zones.
- Ran an outreach campaign reaching 5,000+ citizens via voice/SMS alerts across 15+ areas, boosting complaint resolution transparency by 40%.

Technologies / Tools Used : Python, Vapi, FastAPI, MongoDB, JavaScript, TypeScript, React

Alex — AI-Powered WhatsApp Customer Support Agent | 🌐 Github

Jun 2026

Individual Project

- Built WhatsApp AI Agent "Alex" with 4+ tool-calling capabilities — live order tracking, inventory queries & return policy handling via static context injection.
- Automated ticket generation with production webhook, eliminating 100% manual intervention and achieving sub-3s real-time query resolution end-to-end.
- Engineered prompt-engineered conversation flow maintaining professional tone across 10+ query types, replicating enterprise-grade customer support on WhatsApp.

Technologies / Tools Used : n8n, Twilio, webhook, Airtable, Groq, OpenAI GPT OSS 120B

SKILLS

Databases : MySQL, MongoDB, Redis

Frameworks & Libraries : React.js, Node.js, Flask, Express, Next.js, React

Languages : English, Hindi, Bengali

Programming Languages : Python, JavaScript, SQL, Java, Matplotlib, Linear Algebra, Statistics, Probability

Soft Skills : Communication, Teamwork, Problem Solving, Adaptability, Collaboration, Leadership, Time Management

Tools & Platforms : Node.js, Express.js, MongoDB, Git, GitHub, Docker, Postman
